Wednesday 20th March 2024
9am to 5:45pm

Registration Form

Registration closes 1st March or earlier if the conference is full

Canine Sports Medicine

Dive deep into the exhilarating world of canine sports medicine at the 2024 BVOA Spring Conference! Unlock cutting-edge insights from globally renowned experts and revolutionise your approach to treating athletic dogs. An accurate and rapid diagnosis with perfectly executed surgery to maximise functional outcome. This is what an athlete would want from their surgeon. This is also what we can expect to learn to provide for canine athletes. This conference will provide orthopaedic surgeons with the latest techniques and research to maximise patient performance for athletic, working and companion canines. Come and collaborate with peers and discover the latest insights from the orthopaedic industry. Join us to improve your understanding, or lead the future, of canine sports medicine.
